WHOLESALE PRICE LIST

1937

Huntington Station, Long Island

MEMBERS OF
American Association of Nurserymen
Long Island Nurserymen's Association

To the Trade

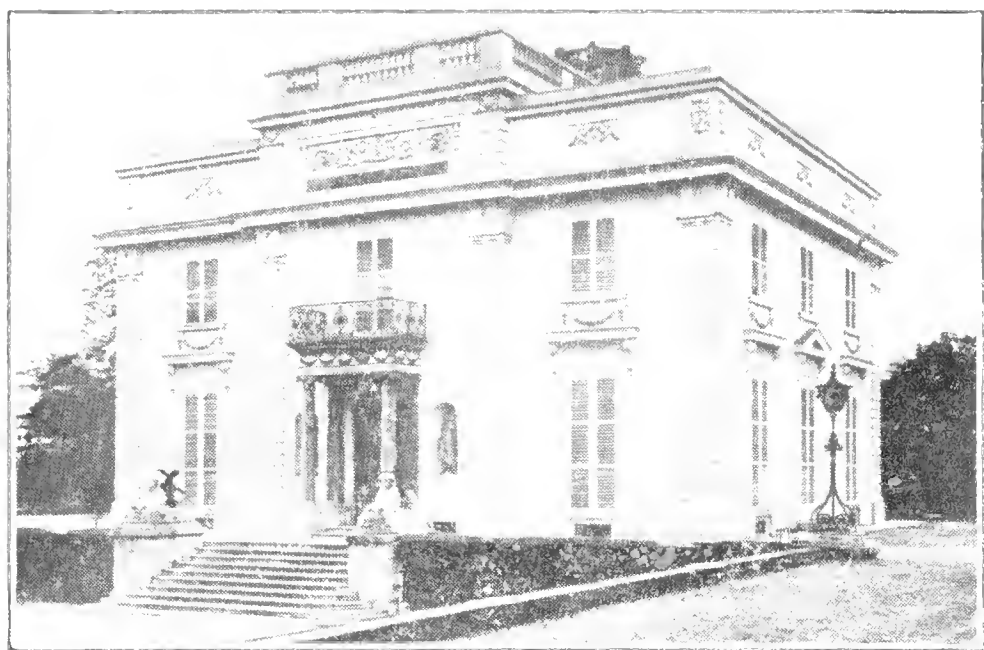

This list contains plants in which we specialize and only those varieties and sizes which we have available in quantity. They grow to perfection in our soil and climate.

Our large scale production enables us to quote you attractive prices on material used for Public Works Projects. Your want list for same will be greatly appreciated.

Through our connections with the entire nursery trade we can supply nursery products not mentioned in this list at reasonable prices which we will gladly submit if desired.

BAGATELLE NURSERY

Telephone: Farmingdale 850

Chateau de Bagatelle

On a wager with Marie Antoinette, in 1780, the Comte d'Artois (later Charles X, the second King of the Restoration), built an entrancing little chateau with its charming gardens in the incredibly brief time of 64 days. The outlay was three million francs.

"C'est magnifique!", cried Marie Antoinette, on catching her first glimpse of the beauty spot which became an enduring reminder of her wager.

"Mais, non C'est une bagatelle" answered the gallant Comte d'Artois. So in this romantic manner the name "Bagatelle" originated.

Bagatelle Nursery is so named because it also is a beauty spot, with its specimen Evergreens, Ornamental and Flowering Trees, Rhododendrons and Shrubbery. It is well worth a visit. A cordial welcome awaits you.

Conditions of Sale

PRICES

The prices named in this list cancel all prices and sales conditions quoted in previous lists and offers. They are based on current market quotations, are subject to change without notice and are f.o.b. **Huntington Station.**

DISCOUNTS

2% discount will be allowed for payment in 10 days from date of invoice.

TERMS

All accounts are due first of second month following date of invoice. Cash or satisfactory trade or bank references must accompany all orders from purchasers unknown to us. Interest at 6% per annum will be charged on all overdue accounts.

PACKING

Packing is charged at cost, the price representing the actual cost of the material used in the operation.

CARLOADS

We can ship by Express and Freight via Long Island Railroad connecting in New York with all other railroads and boatlines. No charge will be made for loading carload lots.

TRUCKS

We deliver by truck within a 75-mile radius of the nursery. Deliveries of orders amounting to \$1,000 or more will be made free of charge. Under \$1,000 the charge will be made according to distance and size of truck. No charge for loading bulk truck lots.

Hardy Ghent Azaleas

This charming class of Azaleas well deserves a place in every garden. They make a display of gorgeous beauty and flower when the Japanese Azaleas are over (May and June). The flowers, which are freely produced, embrace all shades of colours from scarlet to rose, pink, white, orange, yellow and striped.

Each

Bouquet De Flore, soft pink, striped white

18 to 24 in.	B. & B.	7.50
--------------	--------------	------

Nancy Waterer, clear lemon yellow.

18 to 24 in.	B. & B.	7.50
--------------	--------------	------

Sang de Gandbruges, dark red

18 to 24 in.	B. & B.	7.50

Japanese Azaleas

These profusely flowering plants are useful for many purposes, as well for landscape planting in *Borders*, *Masses* and *Rockeries* as for the florists in *Pots* and *Flowerbaskets* and *Table Decoration*.

FORCING should not be commenced before the beginning of January. The later the plants are brought inside, the better will be the results. If forced too early and with too much heat several buds will fail to break and also the colours will become less brilliant. While forcing, the plants should be watered abundantly. In the open they flower in April and May.

	Each	Per 10	Per 100
AZALEA amoena			
Amoena Azalea			
Bright rosy purple flowers. One of the hardiest of the Japanese Azaleas.			
12 to 15 in. B. & B.75	6.00	50.00
15 to 18 in. B. & B.85	7.50	60.00

AZALEA hinodegiri			
Hinodegiri Azalea			
The most popular of all Japanese Azaleas. Carmine red flowers. Very hardy.			
6 to 8 in. B. & B.40	3.00	25.00
8 to 10 in. B. & B.60	5.00	40.00
10 to 12 in. B. & B.75	6.00	50.00
12 to 15 in. B. & B.	1.00	8.50	70.00

AZALEA poukhanensis yodogowa			
Yodogawa Azalea			
A double form of Azalea poukhanensis with pinkish lavender flowers. Blooms in May.			
15 to 18 in. B. & B.	1.75	15.00	125.00
18 to 24 in. B. & B.	2.00	17.50	150.00

Azalea Kaempferi Hybrids

More than forty years ago Mr. P. M. Koster commenced to specialize in Azaleas. After twenty years of experimenting the Koster Kaempferi Hybrids were produced which promised to possess all the qualities of the Azalea Kaempferi and many more besides. It is gratifying to state that after many years of hard test, the Koster Kaempferi Hybrids have fulfilled all the requirements we may demand of an ideal outdoor Azalea.

OUTSTANDING FEATURES ARE:

1. Thorough hardiness (20 degrees below zero).
2. Rapid growth.
3. Extreme floriferousness.
4. Large flowers (some measure 2½ in. across).

Our customers are delighted with these new Kaempferi Hybrids and we feel sure that you will be equally satisfied.

Carmen

Delicate rose like the colour of Moss Pink (Phlox subulata)

2 year-old Cuttings.....	.50	4.00	35.00

2 to 3 ft. B. & B.....	5.00	to 10 00	each

Azalea Mollis Seedlings

These freely flowering plants are thoroughly winter hardy and as recommendable for landscape work as they are for forcing. They succeed best in peaty soil. Those destined for forcing are transplanted in the Spring. The flowers are large and showy and appear in trusses of various colours, in shape resembling the Rhododendron. Seeds are only taken from the most exquisite varieties.

12 to 15 in. B. & B.	1.15	10.00	75 00
15 to 18 in. B. & B.	1.50	12.50	

A Recent Introduction**AZALEA mucronulata****Korean Azalea**

No doubt this beautiful hardy shrub will quickly gain popularity. It is the earliest of all Azaleas to bloom and one can hardly imagine a more striking colour contrast in the early Spring landscape than a grove of golden Forsythias bordered by a planting of this pinkish lavender species.

15 to 18 in. B. & B.	1.50	12.50	100.00
---------------------------	------	-------	--------

Native Azaleas

While the Japanese Azaleas are well adapted to formal effects and neatly kept gardens, the looser, more independent, graceful habit of the native types, shows to best advantage in naturalistic plantings. All they ask is a 6-inch mulch of leaves all the year around and moisture. They are thankful for shade.

AZALEA arborescens**Sweet Azalea**

A compact round plant with pure white fragrant flowers in June.

18 to 24 in. B. & B.	1.75	15.00	125.00
2 to 2½ ft. B. & B.	2.00	17.50	150.00

Magnolias

Magnolias are especially valuable as lawn specimens and show to best advantage with evergreens as a background. Like Rhododendrons they should have a somewhat acid soil. Lime and fresh manure should never be given. The best fertilizer is decayed leaves and peat. They like a moist location and an abundance of light. Pruning is rarely done because the branches do not heal very readily. The roots of magnolias are very soft and easily injured in transplanting. Our plants are carefully prepared and will transplant successfully.

MAGNOLIA glauca **Sweetbay**
 Creamy white fragrant three inch flowers in May and June

3	to 4	ft.	B. & B.	1.25	11.00	100.00
---	------	-----	--------------	------	-------	--------

— liliflora nigra **Purple Lily Magnolia**
 Long brownish purple flowers from March until late Spring. Darkest of all.

2	to 3	ft.	B. & B.	1.50	12.50	100.00
3	to 4	ft.	B. & B.	2.00	17.50	150.00

— parviflora **Oyama Magnolia**
 White cup-shaped fragrant flowers all summer long.

2	to 3	ft.	B. & B.	2.00	17.50	150.00
3	to 4	ft.	B. & B.	3.25	30.00	275.00

Japanese Flowering Cherries

Each Per 10 Per 100

PRUNUS serrulata fugenzo **Kofugen**

The finest of Japanese Cherries, known to the Japanese more than 500 years ago. Also known as Kofugen, Benifugen or James H. Veitch. As a specimen tree for the lawn Fugenzo is excellent, the flowers open rather late and retain their pinkness with very little fading.

4	to 5	ft.	1.50	12.50	100.00
5	to 6	ft.	2.00	18.00	160.00
6	to 8	ft.	3.00	27.00	
8	to 10	ft.	5.00	45.00	
10	to 12	ft.	7.00		

PRUNUS serrulata shirotae **Snow White**

Also known as Mount Fuji and Sirotae. The Sirotae is probably the only double-flowered white Japanese Cherry cultivated to any extent outside of Japan. It has large double fragrant flowers about 1½ in. wide in short-stemmed clusters of two to five.

Half Standards, 3 yr. Crown..	3.00	27.00
Half Standards, 3 in. Cal.....	10.00	

PRUNUS subhirtella shidare-higan **Weeping Japanese Cherry**

In its best form the pronounced pendulous habit and elongated willow-like leaves give this Cherry a very distinct appearance. They bear abundant bloom in long loose corymbs, the individual flower being rather small and of a rosy-pink hue, almost carmine in bud.

Half Standards, 3 yr. Crown..	3.00	27.00
Half Standards, 3 in. Cal.....	9.00	

Prices of Japanese Cherries quoted for bare roots; an additional charge will be made for B. & B. We can supply also excellent extra-heavy specimens in various sizes at reasonable prices which we will gladly submit if desired.

Hybrid Rhododendrons

A Specialty

Album elegans

Tallest growing of all the Rhododendrons, quickly attaining a height of 6 to 8 ft. and therefore should be used in the background. The general effect is white when full open but lilac-pink in bud.

Catawbiense grandiflorum

A vigorous grower of thorough hardiness with brilliant bright violet flowers.

Roseum elegans

A big round, sturdy vigorous bush of extreme hardiness and splendid foliage. One of the most reliable of all hybrids. Brilliant rose-pink flowers.

Prices of the above mentioned varieties as follows:

12	to	15 in.	B. & B.90	7.50	60.00
15	to	18 in.	B. & B.	1.75	15.00	135.00
18	to	24 in.	B. & B.	2.25	20.00	175.00

2½	to	3 ft.	B. & B.	4.00	35.00	320.00

Each Per 10 Per 100

HYBRID RHODODENDRONS—Cont.**Amphion**

One of the most desirable varieties, with enormous trusses and splendid foliage. The flowers are clear pink with large white centers.

Dr. H. C. Dresselhuys

One of the recently imported varieties and one of the best reds. Glittering crimson flowers and trusses of unusual sizes.

Ignatius Sargent

In colour and size of the individual flower one of the handsomest Rhododendrons. It is a cheerful bright red. The leaves are very large and broad making a handsome plant.

Mrs. C. S. Sargent

Beautiful, cherry pink flowers with wavy edges. For foliage and massiveness of plant one of the best. Not only grows rapidly, nearly equaling in height *Alum elegans*, but it is broad and solid.

Parsons Gloriosum

A vigorous upright grower, flowering early with handsome clusters of pink, tinted with lilac. The leaves are large. Excellent for massing.

Roseum Superbum

An especially handsome bush with large clusters of deep rose-pink flowers.

Prices of the above mentioned varieties as follows:

12 to 15 in.	B. & B.	1.10	9.00	75.00
15 to 18 in.	B. & B.	2.25	20.00	150.00
18 to 24 in.	B. & B.	2.50	22.50	200.00

Rhododendron Novelties**F. Bettex** (*Atrosanguineum* × *Doncaster*)

Strong vigorous grower. Compact growth. A free bloomer with very large spotted scarlet flowers.

Corry Koster

Large solferino-red trusses of perfect habit. Fine foliage. A splendid introduction.

Hugo Koster

One of the most perfect recent red varieties. Large and wonderfully free flowering and of a rich ox-blood red colour. A regular *Doncaster* type but a faster grower.

Mme. de Bruin

A wonderful crimson carmine introduction possessing many fine qualities.

Mrs. P. den Ouden (*Atrosanguineum* × *Doncaster*)

A strong vigorous grower, developing into a compact well-shaped plant. Very free flowering with fiery crimson blooms, very hardy.

Peter Koster

Large trusses of beautiful vivid red flowers edged with pink. A valuable addition to our collection of reds.

Prices of the above mentioned varieties as follows:

12 to 15 in.	B. & B.	2.25
15 to 18 in.	B. & B.	3.00

Native Rhododendrons

Each Per 10 Per 100

RHODODENDRON carolinianum

Carolina Rhododendron

A bushy plant with rather narrow foliage, eventually reaching 4 to 6 ft. in height. Compact cluster of very charming pink flowers are produced abundantly in May and June. Plenty of sunlight necessary for its perfect development.

18	to 24	in.	B. & B.	2.00	16.50	145.00
2	to 2½	ft.	B. & B.	2.50	22.50	200.00
2½	to 3	ft.	B. & B.	3.00	26.00	240.00

RHODODENDRON catawbiense

Catawba Rhododendron

This is no doubt the hardiest of all Rhododendrons and the most magnificent for border, grouping and massing purposes. It is remarkably free blooming; the colour of the flowers, which are borne in large trusses varies from rose to old rose. Foliage large, handsome and of a shiny green.

18	to 24	in.	B. & B.	2.00	16.50	145.00
2	to 2½	ft.	B. & B.	3.00	25.00	225.00
2½	to 3	ft.	B. & B.	3.50	30.00	265.00
3	to 3½	ft.	B. & B.	4.00	35.00	325.00

RHODODENDRON maximum

Rosebay Rhododendron

Is admirably adapted for massing; will thrive in shaded or exposed positions and is perfectly hardy in any part of the country. The flowers vary in colour from pure white to delicate shades of pink and are produced in great profusion. It is the latest flowering of all the Rhododendrons and gradually comes into bloom when the Hybrid varieties fade away.

2	to 2½	ft.	B. & B.	2.00	18.00	160.00
2½	to 3	ft.	B. & B.	3.00	26.00	240.00
3	to 4	ft.	B. & B.	3.75	35.00	300.00

All native Rhododendrons mentioned above are nursery grown. Write for special prices on collected stock, on extra large specimens and on carload lots of assorted sizes.

French Hybrid Lilacs

Each Per 10 Per 100

Jan Van Tol

The result of crossing the forms Mme. Lemoine and Marie Legraye. The pure white single flowers are Bonvardia-like and very large and fragrant. The clusters are also very large, sometimes one foot long.

2 to 3 ft.75 6.00 50.00

Katharine Havemeyer

Gorgeous big clusters of broad, double flowers. Cobalt-blue. One of the handsomest new lilacs.

2 to 3 ft.75 6.00 50.00

Lamartine

A popular lilac belonging to the hyacanthiflora group. Produces a wealth of clustered single flowers, rosy mauve in colour. This is one of the earliest of this group to flower.

2 to 3 ft.75 6.00 50.00

Miss Ellen Willmott

A late, pure white variety, producing its blooms in great profusion. Hard to surpass by any of the other white lilacs.

2 to 3 ft.75 6.00 50.00

Mrs. Edward Harding

Named by Lemoine after the well-known horticulturist and lilac expert of this country. It is one of the dark flowered varieties, ranging in tones of bright to deep carmine colour. Flowers mid-season.

2 to 3 ft.75 6.00 50.00

Reaumur

A Lemoine variety with heavy clusters. Single and fragrant. Colour violet-carmine.

2 to 3 ft.75 6.00 50.00

Ruhm von Horstenstein

Exceptionally large trusses, measuring about 12-15 inches in length. Single flowered, pink.

2 to 3 ft.75 6.00 50.00

How to Reach Bagatelle Nursery by Auto or Train

Our Nursery, consisting of 200 acres, is located within 35 miles of New York. When traveling on the Jericho Turnpike proceed as far as the Dew Drop Inn (Jericho Turnpike and New York Avenue, Huntington), turn right and follow the Bagatelle Nursery signs.

From the Merrick Road turn into Deer Park Avenue at Babylon, proceed to about two (2) miles beyond Deer Park Railroad Station where a sign "Bagatelle Nursery" will direct you further.

Another way from New York is via the Long Island Motor Parkway. Turn left for Nursery at our sign $4\frac{1}{2}$ miles beyond the Huntington toll-gate.

By train the Bagatelle Nursery can be reached from three stations, Huntington, Wyandanch and Babylon. We will be glad to call for visitors at any of these stations if notified in advance of the hour of arrival. Your kind inspection is cordially invited at any time.
